W. BREDEBECK DEAD

AFTER A WEEK'S ILLNESS ACUTE RHEUMATISM PROVES FATAL.

A RESIDENT SINCE 1870

He Had Lived in and Near Maryville for 42 Years—The Funeral Will Be Held Monday Afternoon.

Wilhelm Bredenbeck, for forty-two years a resident of Maryville, died at his home, one mile south of Maryville, Friday afternoon at 3:45 o'clock, after a week's illness of acute rheumatism with complications.

The news of Mr. Bredenbeck's death was received with much surprise by the many friends of the family in this city, as his sickness was not generally known. He was taken ill in the evening on his return from the colored celebration, but his sickness was not thought dangerous, as he had been subject to attacks of rheumatism, which he contracted from service in the civil war.

The funeral services will be held at the family home Monday afternoon at 2:30 o'clock and will be conducted by Rev. Samuel D. Harkness of the First Presbyterian church. Interment will take place in Miriam cemetery.

The body will lie in state at the family home on Sunday afternoon.

Mr. Bredenbeck was one of the best known residents of our city. He was born September 29, 1834, in Westphalia, Prussia, Germany. His father was a farmer. He was given a common school education and was taught the trade of a baker at the age of 15 years, which he followed for many years. In 1858 he came to the United States and settled in St. Louis and worked as a baker in that city and other places along the Mississippi river, finally locating in New Orleans, where he was at the time the civil war was declared. He then went to Texas and enlisted for service in the confederate army and served under General Duncan at Ft. Jackson and Ft. St. Philip. He was taken prisoner by Admiral Farragut, but was later paroled. After the war he returned to his native country and remained three years.

In May, 1867, he married a school girl friend of Westphalia, Miss Anna E. Cramer, who survives with three children. In the month of March, 1868, Mr. Bredenbeck returned to the United States to make a home for his bride, who was to follow him to America as soon as he sent for her. He made the trip in a sail boat and was nine weeks and eleven days on the way. The boat was lost several times on the journey, and the crew and passengers were nearly starved when they reached America. Mr. Bredenbeck went to LaSalle county, Illinois, where he heard of the building of the Union Pacific railway into the west, and went to Omaha, where he secured a place as cook and baker for a company of railroad men who were superintending the construction work. He remained with them until the road was built to Salt Lake, Utah, when he went to Belleville, Ill., and worked as a baker until he left for New York City to meet his wife and their 20-months-old son, Wilhelm, Jr.

On the way to New York City a wreck occurred on the Grand Trunk railway at 4 o'clock in the morning. The passenger coach ahead of the one in which Mr. Bredenbeck was was thrown from the track and the whole side of the coach where Mr. Bredenbeck was seated was torn off. He was among the few who escaped uninjured.

He brought Mrs. Bredenbeck and son to Nodaway county and settled near Maryville in 1870. They rode from Creston to Maryville on the new branch of the Burlington railway, the line being laid as far as the Valley house, near the site of the present Burlington depot.

They made their home at Mr. Bredenbeck's bakery and restaurant, where Hansen Bros. cigar store now is, where they lived for six years. He then purchased the farm one mile south of the city, where he had lived for thirty-six years at the time of his death. He had a large vineyard in connection with his regular farming and prospered.

Eight children were born to Mr. and

Mrs. Bredenbeck, five of whom died in infancy. Those surviving are Wilhelm Bredenbeck of Chicago; Rosa, the wife of Peter Dietz of this city, and Miss Amelia Bredenbeck, at home. Mr. and Mrs. Bredenbeck were members of the Reformed Presbyterian church and were attendants on the First Presbyterian church of this city, as there was no other church of their faith here.

Brought Son to Hospital.

B. B. Holtman of Ravenwood brought his son to St. Francis hospital Friday night, where he was operated on for appendicitis. The young man is getting along nicely and his father returned home Saturday.

Mrs. Wells had to lie down all the way on her trip home Friday, but Burman was able to sit up all the way.

\$6,000 BONDS SOLD.

County Court Sells This Amount of Good Roads Bond Issue for Union Township.

The county court Saturday sold \$6,000 of bonds, \$2,000 to Sanford C. Leach of Pickering and \$4,000 to the Bank of Pickering, for Union township. At a recent election held in that township a bond issue of \$15,000 for good roads carried by a good vote, and at the present time only \$6,000 of these will be issued. The money received by the sale of these bonds will be sent to the township trustee of that place, J. W. Wiley, and the money expended on good bridges and road improvement.

All of the bridges in this township will be cement, the roads will be dragged and the hills cut down in many places. The township board will have charge of the work and the overseer in each district will look after the work in that district. There are seven road overseers in Union.

The county court also made an order that Depot street in Barnard be vacated according to a petition presented to the court by Henry Stalling. The court adjourned late Saturday afternoon.

Except for a few minor details everything was in readiness for the opening program this afternoon, which consisted of a band concert by the Maryville band and an address by President H. K. Taylor of the Normal. This evening's program is free and consists of band music by the Maryville band.

Sunday morning there will be no program of any kind, that part of the day being given to the church services downtown. In the afternoon the regular program begins at 2 o'clock with music by the band and soloists. Mrs. Pearl Hutton-Schrader, who is visiting

ing her brother, W. J. Hutton, and family, will sing at this time and again in the evening. Manager Land says that Mrs. Schrader is undoubtedly the best soprano who has ever appeared in Maryville.

At 2:45 o'clock Bishop Partridge lectures on "Life Among the Chinese." Bishop Partridge is new to Maryville audiences, but those who know him do not feel the least doubt as to his success here. He has traveled extensively through the orient for more than a quarter of a century, and he cannot

fail to tell of his experiences in any but a fascinating way.

Following the concert Sunday evening the lecture will be delivered by Dr. Robert Parker Miles, a well known lecturer and a writer for the New York Journal. Coming to America from England when only a boy, Dr. Miles has worked his own way to his present high standing as a man of public influence. From his wide field of experience he cannot help but give his hearers a good lecture.

A few enthusiastic Chautauqua goers went into permanent camp Friday night and spent a quiet, restful night in sleep. The rush of moving into the tents did not begin until Saturday morning.

News of Society and Womens' Clubs

Announce Daughter's Wedding.

Mr. and Mrs. William Smith Miller of Vinita, Okla., who formerly lived northwest of Maryville, announce the marriage of their daughter, Iona Laura Miller to George Preston Fogle at their home on Wednesday, August 7, 1912. Mr. Fogle is a prosperous attorney of Vinita.

Friday Dinner Guests.

Mrs. Harry Foster of Charlton, Ia., and Mrs. John W. Tompson of Kansas City, who are visiting relatives in Maryville, were 12 o'clock dinner guests on Friday of Mr. and Mrs. Frank L. Garrett. Mrs. Garrett is a niece of Mrs. Tompson and Mr. Garrett a brother of Mrs. Foster.

Mrs. Dalbey Was Hostess.

Mrs. Fletcher Dalbey entertained the Dew Drop Inn club at her home Wednesday afternoon. Owing to the storm only a few were present, but they had a splendid time. The hostess served refreshments to her guests, who were Mrs. Claude Moore and her mother, Mrs. James McGinness, and Mrs. John Sprague. The next meeting will be in two weeks at the home of Mrs. Harry Farrar.

Thursday Dinner Guests.

Mr. Peter Behm and daughter, Miss Susie, living north of Maryville, entertained at 12 o'clock dinner Thursday. Their guests were Mrs. John Behm and daughter of this city and their guests, Mrs. J. K. Perkins and son and daughter and Mrs. D. F. Sherlock and son of St. Joseph. After dinner the host took his guests to view his corn and each one took home a stalk of corn twelve feet long with three ears of corn on it. Mr. Behm is not among the pessimists who are afraid the corn crop is going to be a failure.

Entertained For Aunt.

Mrs. Bert Blackburn of near Pickering, entertained Friday informally at luncheon in honor of her aunt, Mrs. Babcock of Omaha, who, with her husband, is making an extended visit with the family of her brother, T. R. DeWolf. It being club day, the M. I. Circle was invited for the afternoon. The subject "Missouri—Her People and Her Resources" was quite interesting. The hostess gave her guests a slip of paper and requested each to write a verse of poetry about our state. The guest of honor, not being a Missourian, voluntarily contributed the following:

I'm visiting in Missouri. I find it a beautiful state. I am sorry I knew nothing of her beauties until late.

Hoping I may learn more of its nature while I remain, Wishing great success to the people of Missouri's domain."

The judges awarded the honors to Miss Jennie Ringgold for the following verses:

Of all the beautiful countries, The home of birds and bees, Missouri! thou fair province! Is the fairest of all these.

Thy mineral resources are numerous, Thy miles the very best, Thy schools and churches more beautiful

Than of any state in the west.

Thy people are progressive—Ambitious, let me say. Champ Clark would soon be president If Missouri had her way. At the close the hostess served the following menu: Potatoes a la mode, women of the desert, West India bean juice, snickers.

DR. NEELY ARRESTED

CHARGE OF WIFE ABANDONMENT FOR CONCEPTION PHYSICIAN.

MARRIED HERE LAST JUNE

He Says He Thought His Henry County Wife Had Secured Divorce—He May Be Held for Bigamy.

Dr. J. E. Neely, who recently located at Elmo, was arrested Friday by Deputy Sheriff George L. Evans, as he is wanted in Henry county, Mo., on a charge of wife abandonment. He was brought to Maryville, and the authorities from Henry county will come here some time Saturday after him.

Dr. Neely, being under the impression that a divorce had been granted to his wife in Henry county last spring, was married in Maryville on June to Miss Bess K. Williams of Conception Junction by Dr. J. S. Ford of this city. The way, as the story is told by Dr. Neely, is that last spring he picked up a paper from Henry county and noticed in the circuit court proceedings that his wife had been granted a divorce. Taking this for granted, he secured a marriage license in this county to wed Miss Williams, and was married to her. Now it appears that his wife in Henry county did not get a divorce, and issued an information against him this week, the charge being wife abandonment. It is probably not known in Henry county that Dr. Neely married again, or the charge would probably have been bigamy.

Dr. Neely came to Nodaway county about eight or nine months ago and located at Conception Junction. The first of August he moved from the Junction to Elmo. He is about 42 years of age, and by his first marriage he has two boys, one 19 years old and the other 17. He has been separated from his wife for some time. Crawford & Saylor are the attorneys for Dr. Neely.

FINE LECTURE COURSE.

If Maryville Wants One It Is Necessary to Guarantee 300 Tickets.

The Normal school is proposing to offer the following strong and attractive course for the winter:

Dr. George R. Stuart, lecturer and humorist.

The University Girls, orchestra and singing. Miss Mildred Morrison, a Maryville girl, of whom we are proud, belongs to this organization.

Noah Bellhuz, a great reader of plays, will give the "Hoosier Schoolmaster."

Dr. John A. Gray, a very popular lecturer.

The Euclid Quartet, with organ chimes.

The course will be given at one of the central churches. The season tickets are only \$1.25, or just half the cost by single admission, which will be 50 cents for each attraction.

Three hundred tickets must be guaranteed to secure the course. Messrs. Sells and Kirby Taylor are making a canvass of the community, and it is hoped that every one who desires a good lecture course will take one or more tickets.

DOES BOOK FARMING PAY.

Here is One Case Where It Did, and Made a Friend For the College of Agriculture.

"There isn't anything to this book farming," said an old horny handed farmer in Henry county to his son, who had just returned from taking the short course at the agricultural college at Columbia a couple of years ago. "Well, there may not be, father, but all I ask you to do is to let me plant twenty acres of corn this year and handle it as I want to; in the meantime we'll handle yours in the old way if you think that's best."

With a good deal of reluctance the old gentleman agreed to the arrangement. In the fall of 1910 the son averaged fifteen bushels more to the acre on his twenty acres than the old gentleman did on his, and from that day to this he has been a friend of the agricultural college.—The Missouri Farmer.

TAFT AS A REVISIONIST.

For the second time within a year the president has vetoed the bill to give the American people cheaper clothing. He has admitted that the tariff duties exacted from the people in the woolen schedule, known as "schedule K," are "indefensible," and yet he has twice within a year vetoed bills that sought to reduce the burdens levied in that schedule.

The two bills are substantially the same but the reasons assigned in the two veto messages are different. Last summer the president declared that he was withholding his approval of the bill because the tariff board had not reported on that schedule. The tariff board did report soon after, and this time he declares the reductions are too heavy. He is afraid that some of the mills under the protection of a 200 per cent duty will be embarrassed and that some of their five and six-dollar-a-week employees will be thrown out of work. He thinks it better for them to continue to pay two prices for the clothing they wear.

The bills passed a Democratic house and a Republican senate and are nowhere regarded as radical. Mr. Taft still insists that he wants to see the schedule "revised," and urges congress to remain in session until it can pass a bill that will exactly suit his notions. Congress has been in session for thirteen out of the last sixteen months, and, if it takes any further action at all, it will be to pass the bill over the president's head. It has now been fully demonstrated that the only revision the president will accept is that which the trusts will fully approve. He has let it be known that all the other tariff revision bills passed by this congress will meet the same fate that has come to the woolen bill. To spend more time on tariff revision while he occupies the executive chair would be nonsense.

Perhaps no other president has ever wielded the veto more industriously than Mr. Taft. The original idea of the veto was to use it in rare and flagrant cases of known error. Mr. Taft exercises it to gratify personal whims. Not only have all the tariff bills fallen under his ban, but he has vetoed a number of appropriation bills, held up the pay of federal employees and halted the federal machinery generally.

He refuses to approve the pension appropriation bill because congress deemed it wise to discontinue the pension agencies over the country and make payment to pensioners direct from Washington. As a result payment has been delayed and men all over the country are without their money. He vetoed the army appropriation bill because an attempted improvement in the organization and control of army affairs would inter-

fere with the ambitions of a certain distinguished army official. He vetoed the legislative appropriation bill because it sought to abolish the commerce court, a useless institution, whose head is under impeachment charges. On the most trivial excuses he has nullified the work of the present congress and established a new record of executive interference with the functions of the legislative branch of the government.

With a president like Taft there is little use for a congress except to pass such bills as he may originate and approve in advance.

MANIAC STOLE FARMER'S WIFE

Wild Ride Across Country Ends in Cornfield.

WOMAN RESCUED BY PURSUERS

Armed Lunatic Still at Large and Firing at Possemen—Search for Madman Continues Throughout the Night.

Hutchinson, Kan., Aug. 10.—Kidnaped by a man believed to be insane and said to be Oscar Dudley, 35, Mrs. Thomas Rollins, wife of a farmer one and one-half miles north of Haven, was driven across country early in the afternoon at the point of a shotgun. Mr. Rollins was not at home. After driving in a buggy several miles, Mrs. Rollins was forced to get out and accompany the man into a large corn field.

When her absence was discovered a posse of several hundred armed men was formed and pursuit given. The pair were surrounded in the field and the lunatic took several shots at the officers, who were afraid to close in, thinking the woman's life might be forfeited.

Woman Hysterical.

Still searching, the posse finally found Mrs. Rollins. She was in a hysterical condition and was unable to tell her story of the kidnaping. She was unable to talk at all owing to fright. The posse continued the hunt for the lunatic, but was unable to find any trace of Dudley.

At midnight interest in the search had not waned and the posse was gradually getting larger.

The man is reported to be a raving maniac.

Hardly had he gotten outside the city limits of Haven, through which he passed, when an alarm was raised and farmers started in pursuit of the couple.

A few miles from Haven four of the posse came within shouting distance of Dudley and his victim. He pulled the shotgun on them and commanded them to stop.

Hunt Still Continues.

Driving his team with one hand at breakneck speed and holding the woman with the other the captor drove to the cornfield near Mount Hope where he abandoned the buggy and forcing his victim to get out, took her into the cornfield.

The man was seen several times and fired occasionally in the direction of the possemen. The officers did not reply for fear of wounding the woman. About 11 o'clock the woman was found alone, crying and unable to speak.

Mrs. Rollins was rushed back to Haven and given medical attention.

At 1 o'clock in the morning the posse was still hunting in the vicinity of the corn field, but it was uncertain whether they were getting glimpses of the fugitive or members of their own company. For this reason no more shots were fired.

San Francisco, Aug. 10.—Because Lee Soom, a Chinese slave girl, value \$4,500, was rescued from a den in a raid by the police and taken to a mission house, there is strife in San Francisco's Chinatown. The tongs are muttering and the hatchet and gun men of the societies are arming, while the police squad in the quarter is seeking the tong leader who is supposed to have been the owner of the girl.

The four Families Tong, of which the girl's former master was a member, accused two others of the tong of having informed the mission of the girl's plight and the accused men have been served with notice to appear and exculpate themselves or prepare for death.

TO PRINT POLITICAL SPEECHES

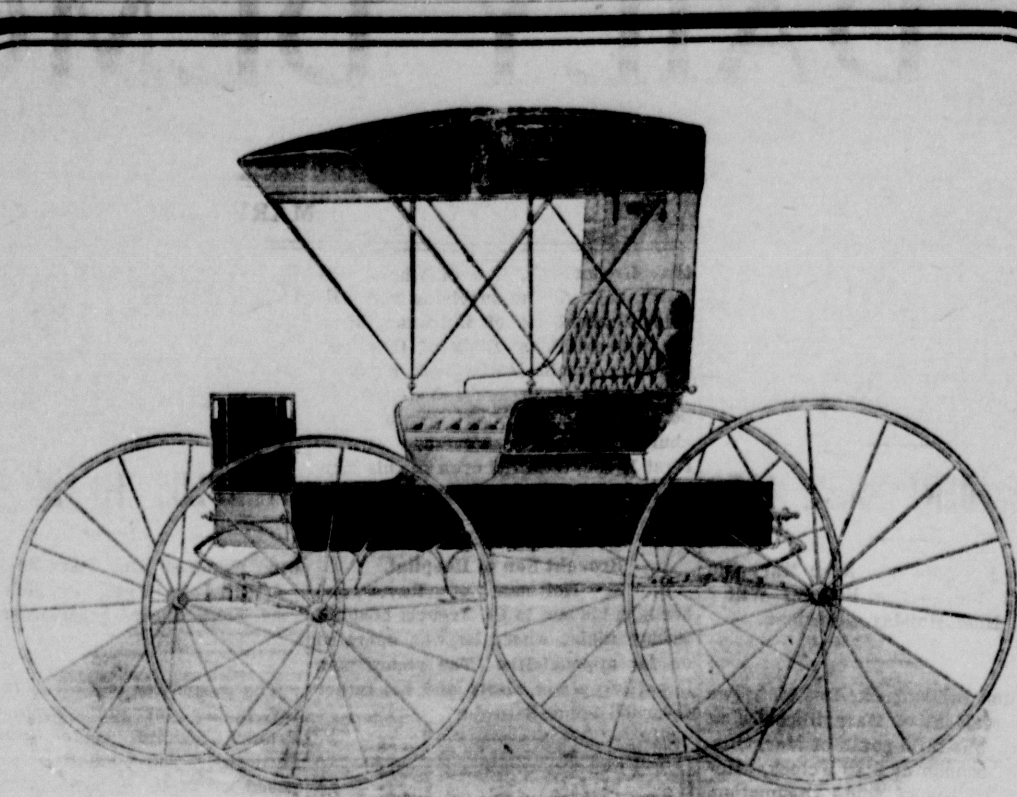

Three Requests in Senate That These be Published as Public Documents are Granted.

Washington, Aug. 10.—The Progressive party made its formal bow in the senate. Senator Poinsett, as a member of the new party, asked that Col. Roosevelt's speech at Chicago August 6 be printed as a public document.

The request followed one by Senator Brandegee that Senator Root's speech of notification and President Taft's speech of acceptance also be printed as a public document. Senator Culbertson had asked that Senator James' notification speech and Gov. Woodrow Wilson's acceptance speech be printed as another document. All three requests were granted.

ONE-MAN CONTROL FOR BIG CANAL

Amended Administration Bill Passes
Senate After Lively Debate.

RAILROAD PROPOSITIONS LOST

Attempt to Remove Paragraph Re-
lating to Rail Control Defeated
—Anti-Trust Section is
Retained.

Washington, Aug. 10.—The Panama canal administration bill, providing free passage to American ships, prohibiting railroad owned vessels from using the waterway, and authorizing the establishment of a one-man government when the canal is completed, was passed by the senate late at night by a vote of 47 to 15.

The provision for free tolls, which was fought out in the senate Wednesday, was indorsed again just before the passage of the measure. The bill will now go to conference.

Attached to the bill, as it passed the senate, were two important amendments directed at trust or railroad control of steamship lines. The first, by Senator Reed, would prohibit ships owned by an illegal industrial combination from using the canal. The second, by Senator Bourne, would force railroads to give up steamship lines which might otherwise be their competitors.

The great fight of the day, centered about the provision to prohibit railroad owned ships from using the canal.

Another Railroad Dodge.
Senator Brandegee, chairman of the inter-oceanic canals committee, made an ineffective fight on the rigid provisions against railroad ships. After the amendments had been adopted to the house bill he moved that the whole paragraph relating to railroad control be stricken out. This motion was defeated, 45 to 18.

The Reed amendment, against trust-owned ships, was called up for a second vote before the bill passed, and was adopted on final passage by a vote of 36 to 23.

Brandegee Closed Debate.
The completed canal bill finally was passed, with Burton, Crane, Gallinger, Lodge, Root and other opponents of the free toll and anti-railroad features of it, voting against it.

Senator Brandegee, closing the debate, insisted that the provisions of the senate bill, admitting American vessels engaged in foreign trade, to free passage in the canal, was an undoubted violation of the Hay-Pauncefote treaty with Great Britain.

He opposed also the Williams amendment admitting American owned foreign built vessels to American registry, provided they did not engage in coastwise trade.

STOLEN GEMS FOUND IN A BARN

Man Who Got \$20,000 Worth From
Chicago Salesman Arrested and
Goods Recovered.

Chicago, Aug. 10.—Jewelry and precious stones valued at \$20,000 were found in a barn by detectives here and Adolph Dumont was arrested on a charge of having stolen them.

The jewelry was identified as that stolen from Patrick McDermott July 18. McDermott had been employed to carry a suitcase containing jewels for a salesman for an Eastern manufacturing firm. The salesman left McDermott outside of the building while he went inside to call on a customer. Dumont was suspected of being one of a gang of thieves. Detectives followed him and saw him enter the barn late at night. When he came out he was arrested and the suitcase containing the gems was found, also about 75,000 cigars.

DARROW TRIAL NEAR FINISH

Evidence is all in on Both Sides—
Famous Bribery Case to
Jury Friday.

Los Angeles, Aug. 10.—With the double announcement of a rest by John D. Fredericks, district attorney, and Earl Rogers, chief counsel of the defense, respectively, the taking of evidence in the bribery trial of Clarence S. Darrow was concluded. Final arguments to the jury will begin Monday morning.

After a conference between attorneys for both sides and Judge Hutton it was decided to allow two and a half days for argument by prosecution and defense. This agreement assures the case going to the jury not later than next Friday.

KANSANS WILL SEE REAL WAR

PLANS ALL READY FOR TROOPS
TO MOVE AUGUST 19.

Maneuvers Will Include Biggest
Mimic Battle Ever Seen in State,
Involving 6,000 Men.

Fort Leavenworth, Kan., Aug. 10.—Plans have been complete for the biggest mimic war ever held in this state. Two full brigades, 6,000 men, consisting of the regulars from Fort Leavenworth and Fort Riley and national guardsmen from Missouri, Kansas and Oklahoma are to engage in hostilities beginning August 19 and lasting until August 29.

Every branch of the army will be represented in the running "battle"—infantry, cavalry, artillery, engineers, signal corps and ambulance companies. The work of the engineers and signal corps will be watched especially.

The work of the engineers is expected to be the most extensive ever undertaken by this branch of the army in maneuver work in the West.

Bridges are to be built and then destroyed, trenches will be dug and breastworks built and then destroyed by dynamite, obstructing fences and other devices to hold back and check the advance of the "enemy" will be built by the engineers along the route of march.

The detailed plan of the "campaign" was not given out beyond the fact that one army will concentrate at Merriam and the other near Lawrence. Only the commander of each of the two armies will know the line of march of his troops.

It is believed that the "fighting" will come nearer to Leavenworth each day, as it is known that the two armies will meet near the Soldiers' home August 27.

The 6,000 men who are to take part in the maneuvers will meet in a "battle" which will be as near like actual warfare as possible under the conditions.

MANY PASSENGERS ARE INJURED

Thirty-Five Seriously Hurt, But None
Killed in Wreck of Fast Train
Near St. Louis.

St. Louis, Aug. 10.—Few passengers escaped injury when the Mobile and Ohio train No. 2, en route from Mobile to St. Louis, was dived near here early in the evening. The train was composed of steel cars, which were making their first trip, and trainmen said the steel coaches prevented a loss of life. The train was running more than an hour late and was trying to make up lost time.

Thirty-five persons were injured, some of them severely.

Forces Sherman Law Fight.

Washington, Aug. 10.—Senator Kenyon of Iowa obtained consent from the senate to fight out on the floor the feasibility of his amendment to the Sherman law, substituting imprisonment of financiers and employers convicted of "unreasonable monopoly." The measure has been in committee for eight months. Kenyon said he would press a vote on the bill before adjournment.

WOOL BILL IS VETOED

President Refuses to Approve Com-
promise Measure Submitted.

UNDERWOOD WILL TRY AGAIN

Gives Notice That Attempt Will be
Made Monday to Pass Tariff
Act Over Mr. Taft's
Veto.

Washington, Aug. 10.—For the second time within a year President Taft vetoed a bill to revise the wool tariff—schedule K of the Payne-Aldrich law.

With a message of disapproval the president returned to congress the bill evolved as a compromise between the house and senate, holding that its low rates would bring disaster to home industries.

He appealed to congress, however, not to adjourn until it had enacted a measure to "substantially reduce unnecessary existing duties," without destroying protection for the wool industry in the United States.

Majority Leader Underwood gave notice that next week he will call up the wool bill again to attempt to pass it over the president's veto.

Other Bills to Follow.
The president's disapproval of the wool bill is to be followed with similar vetoes of the steel bill and the cotton bill. The sugar bill was likely to be vetoed, as is the excise tax bill, the latter probably on the ground that the president believes it unconstitutional.

"Most of the rates in the submitted bill," wrote the president, "are so low in themselves that if enacted into law the inevitable result would be irretrievable injury to the wool growing industry, the enforced idleness of much of our wool combing and spinning machinery, and of thousands of looms and the consequent throwing out of employment thousands of workmen."

The bill sent to the White house imposed an ad valorem duty of 29 per cent on raw wool and on cloths of 49 per cent. Both rates Mr. Taft said were insufficient to protect the wool growers and the manufacturer.

Wants Schedule K Revised.
The president declared in his message that he was eager to see schedule K revised downward and that he would be glad to see congress remain in Washington until a bill he considered proper was sent to the White house.

The message sent to the house was drawn after conferences between the president and Chairman Emery of the tariff board. It was submitted to the cabinet at a special meeting. Reports that two members of the president's official family urged him to approve this measure were denied at the White house.

TWO BATTLESHIPS ARE DAMAGED

Connecticut Broke Crankshaft—Ne-
braska Ran Onto Shoal and Must
Go to Dry Dock.

Washington, Aug. 10.—The battle ship Nebraska ran on an uncharted shoal near Newport, R. I., and was seriously damaged.

The flagship Connecticut about the same time broke its starboard crankshaft and has been ordered to Philadelphia for repairs.

The navy department immediately ordered the Nebraska to the Boston navy yard for examination. It may be necessary to put it out of commission, replacing it in the fleet with one of the battle ships in reserve at the Philadelphia navy yard.

The Connecticut's accident was not so serious.

HAVE NO TIME FOR BUSINESS NOW

Congressional Investigation of High
Prices Must Wait Till Campaign
is Over.

Washington, Aug. 10.—The beef trust is safe from congressional investigation of high meat prices until after the election at least. This was the decision of house leaders. The judiciary committee, which has the authority and the funds to investigate the whole trust problem, declared a "closed season" on investigation till next winter. Congressmen think they have done enough investigating this season. They will soon have to have time to mend political fences.

TRUE COURTESY IN GERMANY

Little Incident That Caused English Traveler to Revise His Opinion of Young Officer.

The German has not only been taught the other courtesies, but he has been born with a kindness of heart and instinctive consideration for others which make his formalities of real value. The man who appears to have a fund of "small change and valueless attentions" is the same man who will go miles out of his way to do you a favor tomorrow.

Only a few weeks ago I was traveling in the same train with a young lieutenant, whose smooth and graceful manners had more than once aroused suspicion in my English soul.

He was got up in his newest and finest uniform; he had on spotless white kid gloves, an eyeglass thrust in his eye; he looked, in fact, the very best dandy, who would not soil himself to save a life.

The train was very full, and presently an old peasant fellow came in with his basket of vegetables, and looked about helplessly, treading on everybody's toes in the meantime. I looked on my military neighbor and waited for the storm. The dandy arose, saluted gravely, offered the weary old peasant his seat, and went and stood outside.

If there is anything in thought telegraphy, that young officer must have heard me apologizing to him all the rest of our journey together.—"My German Year."

W. BREDENBECK DEAD

AFTER A WEEK'S ILLNESS ACUTE RHEUMATISM PROVES FATAL.

A RESIDENT SINCE 1870

He Had Lived in and Near Maryville for 42 Years—The Funeral Will Be Held Monday Afternoon.

Wilhelm Bredenbeck, for forty-two years a resident of Maryville, died at his home, one mile south of Maryville, Friday afternoon at 3:45 o'clock, after a week's illness of acute rheumatism with complications.

The news of Mr. Bredenbeck's death was received with much surprise by the many friends of the family in this city, as his sickness was not generally known. He was taken ill in the evening on his return from the colored celebration, but his sickness was not thought dangerous, as he had been subject to attacks of rheumatism, which he contracted from service in the civil war.

The funeral services will be held at the family home Monday afternoon at 2:30 o'clock and will be conducted by Rev. Samuel D. Harkness of the First Presbyterian church. Interment will take place in Miriam cemetery.

The body will lie in state at the family home on Sunday afternoon.

Mr. Bredenbeck was one of the best known residents of our city. He was born September 20, 1834, in Westphalia, Prussia, Germany. His father was a farmer. He was given a common school education and was taught the trade of a baker at the age of 15 years, which he followed for many years. In 1858 he came to the United States and settled in St. Louis and worked as a baker in that city and other places along the Mississippi river, finally locating in New Orleans, where he was at the time the civil war was declared. He then went to Texas and enlisted for service in the confederate army and served under General Johnston at Ft. Jackson and Ft. St. Philip. He was taken prisoner by Admiral Farragut, but was later paroled. After the war he returned to his native country and remained three years.

In May, 1867, he married a school girl friend of Westphalia, Miss Anna E. Cramer, who survives with three children. In the month of March, 1868, Mr. Bredenbeck returned to the United States to make a home for his bride, who was to follow him to America as soon as he sent for her. He made the trip in a sail boat and was nine weeks and eleven days on the way. The boat was lost several times on the journey, and the crew and passengers were nearly starved when they reached America. Mr. Bredenbeck went to LaSalle county, Illinois, where he heard of the building of the Union Pacific railway into the west, and went to Omaha, where he secured a place as cook and baker for a company of railroad men who were superintending the construction work. He remained with them until the road was built to Salt Lake, Utah, when he went to Belleville, Ill., and worked as a baker until he left for New York City to meet his wife and their 20-months-old son, Wilhelm, Jr.

On the way to New York City a wreck occurred on the Grand Trunk railway at 4 o'clock in the morning. The passenger coach ahead of the one in which Mr. Bredenbeck was was thrown from the track and the whole side of the coach where Mr. Bredenbeck was seated asleep was torn off. He was among the few who escaped uninjured.

He brought Mrs. Bredenbeck and son to Nodaway county and settled near Maryville in 1870. They rode from Creston to Maryville on the new branch of the Burlington railway, the line being laid as far as the Valley house, near the site of the present Burlington depot.

They made their home at Mr. Bredenbeck's bakery and restaurant, where Hansen Bros. cigar store now is, where they lived for six years. He then purchased the farm one mile south of the city, where he had lived for thirty-six years at the time of his death. He had a large vineyard in connection with his regular farming and prospered.

Eight children were born to Mr. and

Mrs. Bredenbeck, five of whom died in infancy. Those surviving are Wilhelm Bredenbeck of Chicago; Rosa, the wife of Peter Dietz of this city, and Miss Amelia Bredenbeck, at home.

Mr. and Mrs. Bredenbeck were members of the Reformed Presbyterian church and were attendants on the First Presbyterian church of this city, as there was no other church of their faith here.

Brought Son to Hospital.
B. B. Holtman of Ravenwood brought his son to St. Francis hospital Friday night, where he was operated on for appendicitis. The young man is getting along nicely and his father returned home Saturday.

\$6,000 BONDS SOLD.

County Court Sells This Amount of Good Roads Bond Issue for Union Township.

The county court Saturday sold \$6,000 of bonds, \$2,000 to Sanford C. Leach of Pickering and \$4,000 to the Bank of Pickering, for Union township. At a recent election held in that township a bond issue of \$15,000 for good roads carried by a good vote, and at the present time only \$6,000 of these will be issued. The money received by the sale of these bonds will be sent to the township trustee of that place, J. W. Wiley, and the money expended on good bridges and road improvement.

All of the bridges in this township will be cement, the roads will be dragged and the hills cut down in many places. The township board will have charge of the work and the overseer in each district will look after the work in that district. There are seven road overseers in Union.

The county court also made an order that Depot street in Barnard be vacated according to a petition presented to the court by Henry Stalling. The court adjourned late Saturday afternoon.

fail to tell of his experiences in any but a fascinating way.

Following the concert Sunday evening the lecture will be delivered by Dr. Robert Parker Miles, a well known lecturer and a writer for the New York Journal. Coming to America from England when only a boy, Dr. Miles has worked his own way to his present high standing as a man of public influence. From his wide field of experience he cannot help but give his hearers a good lecture.

A few enthusiastic Chautauqua goers went into permanent camp Friday night and spent a quiet, restful night in sleep. The rush of moving into the tents did not begin until Saturday morning.

News of Society and Womens' Clubs

Announce Daughter's Wedding.

Mr. and Mrs. William Smith Miller of Vinita, Okla., who formerly lived northwest of Maryville, announce the marriage of their daughter, Iona Laura Miller to George Preston Fogle at their home on Wednesday, August 7, 1912. Mr. Fogle is a prosperous attorney of Vinita.

Friday Dinner Guests.

Mrs. Harry Foster of Chariton, Ia., and Mrs. John W. Tompson of Kansas City, who are visiting relatives in Maryville, were 12 o'clock dinner guests on Friday of Mr. and Mrs. Frank L. Garrett. Mrs. Garrett is a niece of Mrs. Tompson and Mr. Garrett a brother of Mrs. Foster.

Mrs. Dalbey Was Hostess.

Mrs. Fletcher Dalbey entertained the Dew Drop Inn club at her home Wednesday afternoon. Owing to the storm only a few were present, but they had a splendid time. The hostess served refreshments to her guests, who were Mrs. Claude Moore and her mother, Mrs. James McGinness, and Mrs. John Sprague. The next meeting will be in two weeks at the home of Mrs. Harry Farrar.

Thursday Dinner Guests.

Mr. Peter Behm and daughter, Miss Susie, living north of Maryville, entertained at 12 o'clock dinner Thursday. Their guests were Mrs. John Behm and daughter of this city and their guests, Mrs. J. K. Perkins and son and daughter and Mrs. D. F. Sherlock and son of St. Joseph. After dinner the host took his guests to view his corn and each one took home a stalk of corn twelve feet long with three ears of corn on it. Mr. Behm is not among the pessimists who are afraid the corn crop is going to be a failure.

Entertained For Aunt.

Mrs. Bert Blackburn of near Pickering, entertained Friday informally at luncheon in honor of her aunt, Mrs. Babcock of Omaha, who, with her husband, is making an extended visit with the family of her brother, T. R. DeWolf. It being club day, the M. I. Circle was invited for the afternoon. The subject "Missouri—Her People and Her Resources" was quite interesting. The hostess gave her guests a slip of paper and requested each to write a verse of poetry about our state. The guest of honor, not being a Missourian, voluntarily contributed the following:

I'm visiting in Missouri. I find it a beautiful state.

I am sorry I knew nothing of her beauties until late.

Hoping I may learn more of its nature while I remain,

Wishing great success to the people of Missouri's domain.

The judges awarded the honors to Miss Jennie Ringgold for the following verses:

Of all the beautiful countries,

The home of birds and bees,

Missouri! thou fair province!

Is the fairest of all these.

Thy mineral resources are numerous,

Thy mules the very best,

Thy schools and churches more beautiful

Than of any state in the west.

Thy people are progressive—

Ambitious, let me say.

Champ Clark would soon be president

If Missouri had her way.

At the close the hostess served the following menu: Potatoes a la mode,

women of the desert, West India bean juice, snickers.

DR. NEELY ARRESTED

CHARGE OF WIFE ABANDONMENT FOR CONCEPTION PHYSICIAN.

MARRIED HERE LAST JUNE

He Says He Thought His Henry County Wife Had Secured Divorce—He May Be Held for Bigamy.

Dr. J. E. Neely, who recently located at Elmo, was arrested Friday by Deputy Sheriff George L. Evans, as he is wanted in Henry county, Mo., on a charge of wife abandonment, and the authorities from Henry county will come here some time Saturday after him.

Dr. Neely, being under the impression that a divorce had been granted to his wife in Henry county last spring, was married in Maryville on June to Miss Bess K. Williams of Conception Junction by Dr. J. S. Ford of this city. The way, as the story is told by Dr. Neely, is that last spring he picked up a paper from Henry county and noticed in the circuit court proceedings that his wife had been granted a divorce. Taking this for granted, he secured a marriage license in this county to wed Miss Williams, and was married to her. Now it appears that his wife in Henry county did not get a divorce, and issued an information against him this week, the charge being wife abandonment. It is probably not known in Henry county that Dr. Neely married again, or the charge would probably have been bigamy.

Dr. Neely came to Nodaway county about eight or nine months ago and located at Conception Junction. The first of August he moved from the Junction to Elmo. He is about 42 years of age, and by his first marriage he has two boys, one 19 years old and the other 17. He has been separated from his wife for some time. Crawford & Sayler are the attorneys for Dr. Neely.

TAFT AS A REVISIONIST.

For the second time within a year the president has vetoed the bill to give the American people cheaper clothing. He has admitted that the tariff duties exacted from the people in the woolen schedule, known as "schedule K," are "indefensible," and yet he has twice within a year vetoed bills that sought to reduce the burdens levied in that schedule.

The two bills are substantially the same but the reasons assigned in the two veto messages are different. Last summer the president declared that he was withholding his approval of the bill because the tariff board had not reported on that schedule. The tariff board did report soon after, and this time he declares the reductions are too heavy. He is afraid that some of the mills under the protection of a 200 per cent duty will be embarrassed and that some of their five and six-dollar-a-week employees will be thrown out of work. He thinks it better for them to continue to pay two prices for the clothing they wear.

The bills passed a Democratic house and a Republican senate and are nowhere regarded as radical. Mr. Taft still insists that he wants to see the schedule "revised," and urges congress to remain in session until it can pass a bill that will exactly suit his notions. Congress has been in session for thirteen out of the last sixteen months, and, if it takes any further action at all, it will be to pass the bill over the president's head. It has now been fully demonstrated that the only revision the president will accept is that which the trusts will fully approve. He has let it be known that all the other tariff revision bills passed by this congress will meet the same fate that has come to the woolen bill. To spend more time on tariff revision while he occupies the executive chair would be nonsense.

Perhaps no other president has ever wielded the veto more industriously than Mr. Taft. The original idea of the veto was to use it in rare and flagrant cases of known error. Mr. Taft exercises it to gratify personal whims. Not only have all the tariff bills fallen under his oau, but he has vetoed a number of appropriation bills, held up the pay of federal employees and halted the federal machinery generally.

He refuses to approve the pension appropriation bill because congress deemed it wise to discontinue the pension agencies over the country and make payment to pensioners direct from Washington. As a result payment has been delayed and men all over the country are without their money. He vetoed the army appropriation bill because an attempted improvement in the organization and control of army affairs would inter-

fere with the ambitions of a certain distinguished army official. He vetoed the legislative appropriation bill because it sought to abolish the commerce court, a useless institution, whose head is under impeachment charges. On the most trivial excuses he has nullified the work of the present congress and established a new record of executive interference with the functions of the legislative branch of the government.

With a president like Taft there is little use for a congress except to pass such bills as he may originate and approve in advance.

MANIAC STOLE FARMER'S WIFE

Wild Ride Across Country Ends in Cornfield.

WOMAN RESCUED BY PURSUERS

Armed Lunatic Still at Large and Firing at Possemen—Search for Madman Continues Throughout the Night.

Hatchinson, Kan., Aug. 10.—Kidnaped by a man believed to be insane and said to be Oscar Dudley, 35, Mrs. Thomas Rollins, wife of a farmer one and one-half miles north of Haven, was driven across country early in the afternoon at the point of a shotgun. Mr. Rollins was not at home. After driving in a buggy several miles, Mrs. Rollins was forced to get out and accompany the man into a large corn field.

When her absence was discovered a posse of several hundred armed men was formed and pursuit given. The pair were surrounded in the field and the lunatic took several shots at the officers, who were afraid to close in, thinking the woman's life might be forfeited.

Woman Hysterical.

Still searching, the posse finally found Mrs. Rollins. She was in a hysterical condition and was unable to tell her story of the kidnaping. She was unable to talk at all owing to fright. The posse continued the hunt for the lunatic, but was unable to find any trace of Dudley.

At midnight interest in the search had not waned and the posse was gradually getting larger.

The man is reported to be a raving maniac.

Hardly had he gotten outside the city limits of Haven, through which he passed, when an alarm was raised and farmers started in pursuit of the couple.

A few miles from Haven four of the posse came within shouting distance of Dudley and his victim. He pulled the shotgun on them and commanded them to stop.

Hunt Still Continues.

Driving his team with one hand at breakneck speed and holding the woman with the other the captor drove to the cornfield near Mount Hope where he abandoned the buggy and forcing his victim to get out, took her into the cornfield.

The man was seen several times and fired occasionally in the direction of the possemen. The officers did not reply for fear of wounding the woman. About 11 o'clock the woman was found alone, crying and unable to speak.

Mrs. Rollins was rushed back to Haven and given medical attention.

At 1 o'clock in the morning the posse was still hunting in the vicinity of the corn field, but it was uncertain whether they were getting glimpses of the fugitive or members of their own company. For this reason no more shots were fired.

CHINESE PREPARE FOR TONG WAR

Rescue of a Slave Girl in a Raid Starts Strife in Frisco's Chinatown.

San Francisco, Aug. 10.—Because Lee Soom, a Chinese slave girl, value \$4,500, was rescued from a den in a raid by the police and taken to a mission house, there is strife in San Francisco's Chinatown. The tongs are muttering and the hatchet and gun men of the societies are arming, while the police squad in the quarter is seeking the tong leader who is supposed to have been the owner of the girl.

The four Families Tong, of which the girl's former master was a member, accused two others of the tong of having informed the mission of the girl's plight and the accused men have been served with notice to appear and exculpate themselves or prepare for death.

Three Requests in Senate That These be Published as Public Documents are Granted.

Washington, Aug. 10.—The Progressive party made its formal bow in the senate. Senator Poindexter, as a member of the new party, asked that Col. Roosevelt's speech at Chicago August 6 be printed as a public document.

The request followed one by Senator Brandegee that Senator Root's speech of notification and President Taft's speech of acceptance also be printed as a public document. Senator Culbertson had asked that Senator James Wilson's acceptance speech be printed as another document. All three requests were granted.

ONE-MAN CONTROL FOR BIG CANAL

Amended Administration Bill Passes
Senate After Lively Debate.

RAILROAD PROPOSITIONS LOST

Attempt to Remove Paragraph Relating to Rail Control Defeated—Anti-Trust Section is Retained.

Washington, Aug. 10.—The Panama canal administration bill, providing free passage to American ships, prohibiting railroad owned vessels from using the waterway, and authorizing the establishment of a one-man government when the canal is completed, was passed by the senate late at night by a vote of 47 to 15.

The provision for free tolls, which was fought out in the senate Wednesday, was indorsed again just before the passage of the measure. The bill will now go to conference.

Attached to the bill, as it passed the senate, were two important amendments directed at trust or railroad control of steamship lines. The first, by Senator Reed, would prohibit ships owned by an illegal industrial combination from using the canal. The second, by Senator Bourne, would force railroads to give up steamship lines which might otherwise be their competitors.

The great fight of the day centered about the provision to prohibit railroad owned ships from using the canal.

Another Railroad Dodge.
Senator Brandegee, chairman of the inter-oceanic canals committee, made an ineffective fight on the rigid provisions against railroad ships. After the amendments had been adopted to the house bill he moved that the whole paragraph relating to railroad control be stricken out. This motion was defeated, 45 to 18.

The Reed amendment, against trust-owned ships, was called up for a second vote before the bill passed, and was adopted on final passage by a vote of 36 to 23.

Brandegee Closed Debate.
The completed canal bill finally was passed, with Burton, Crane, Gallinger, Lodge, Root and other opponents of the free toll and anti-railroad features of it, voting against it.

Senator Brandegee, closing the debate, insisted that the provisions of the senate bill, admitting American vessels engaged in foreign trade, to free passage in the canal, was an undoubted violation of the Hay-Pauncefote treaty with Great Britain.

He opposed also the Williams amendment admitting American owned foreign built vessels to American registers, provided they did not engage in coastwise trade.

STOLEN GEMS FOUND IN A BARN

Man Who Got \$20,000 Worth From
Chicago Salesman Arrested and
Goods Recovered.

Chicago, Aug. 10.—Jewelry and precious stones valued at \$20,000 were found in a barn by detectives here and Adolph Dumont was arrested on a charge of having stolen them.

The jewelry was identified as that stolen from Patrick McDermott July 18. McDermott had been employed to carry a suitcase containing jewels for a salesman for an Eastern manufacturing firm. The salesman left McDermott outside of the building while he went inside to call on a customer.

Dumont was suspected of being one of a gang of thieves. Detectives followed him and saw him enter the barn late at night. When he came out he was arrested and the suitcase containing the gems was found, also about 75,000 cigars.

DARROW TRIAL NEAR FINISH

Evidence is all in on Both Sides—
Famous Bribery Case to

Los Angeles, Aug. 10.—With the double announcement of a rest by John D. Fredenburgh, chief attorney, and Earl Rogers, chief counsel of the defense, respectively, the taking of evidence in the bribery trial of Clarence S. Darrow was concluded. Final arguments to the jury will begin Monday morning.

After a conference between attorneys for both sides and Judge Hutton it was decided to allow two and a half days for argument by prosecution and defense. This agreement assures the case going to the jury not later than next Friday.

KANSANS WILL SEE REAL WAR

PLANS ALL READY FOR TROOPS
TO MOVE AUGUST 19.

Maneuvers Will Include Biggest
Mimic Battle Ever Seen in State,
Involving 6,000 Men.

Fort Leavenworth, Kan., Aug. 10.—Plans have been complete for the biggest mimic war ever held in this state. Two full brigades, 6,000 men, consisting of the regulars from Fort Leavenworth and Fort Riley and national guardsmen from Missouri, Kansas and Oklahoma are to engage in hostilities beginning August 19 and lasting until August 29.

Every branch of the army will be represented in the running "battle"—infantry, cavalry, artillery, engineers, signal corps and ambulance companies. The work of the engineers and signal corps will be watched especially.

The work of the engineers is expected to be the most extensive ever undertaken by this branch of the army in maneuver work in the West.

Bridges are to be built and then destroyed, trenches will be dug and breastworks built and then destroyed by dynamite, obstructing fences and other devices to hold back and check the advance of the "enemy" will be built by the engineers along the route of march.

The detailed plan of the "campaign" was not given out beyond the fact that one army will concentrate at Merriam and the other near Lawrence. Only the commander of each of the two armies will know the line of march of his troops.

It is believed that the "fighting" will come nearer to Leavenworth each day, as it is known that the two armies will meet near the Soldiers' home August 27.

The 6,000 men who are to take part in the maneuvers will meet in a "battle" which will be as near like actual warfare as possible under the conditions.

Mr. Caldwell is a graduate of Park college at Parkville, Mo. He and his wife were returning home from Siam on the Titanic for their first visit.

Mr. Caldwell was standing on the deck holding their baby in his arms after Mrs. Caldwell had been placed in the lifeboat. Seeing that there was still room in the boat, an officer ordered Mr. Caldwell to get in.

MANY PASSENGERS ARE INJURED

Thirty-Five Seriously Hurt, But None
Killed in Wreck of Fast Train
Near St. Louis.

St. Louis, Aug. 10.—Few passengers escaped injury when the Mobile and Ohio train No. 2, en route from Mobile to St. Louis, was ditched near here early in the evening. The train was composed of steel cars, which were making their first trip, and trainmen said the steel coaches prevented a loss of life. The train was running more than an hour late and was trying to make up lost time.

Thirty-five persons were injured, some of them severely.

Forces Sherman Law Fight.

Washington, Aug. 10.—Senator Kenyon of Iowa obtained consent from the senate to fight out on the floor the feasibility of his amendment to the Sherman law, substituting imprisonment or financers and employers convicted of "unreasonable monopoly." The measure has been in committee for eight months. Kenyon said he would press a vote on the bill before adjournment.

WOOL BILL IS VETOED

President Refuses to Approve Com-
promise Measure Submitted.

UNDERWOOD WILL TRY AGAIN

Gives Notice That Attempt Will be
Made Monday to Pass Tariff
Act Over Mr. Taft's
Veto.

Washington, Aug. 10.—For the second time within a year President Taft vetoed a bill to revise the wool tariff—schedule K of the Payne-Aldrich law.

With a message of disapproval the president returned to congress the bill evolved as a compromise between the house and senate, holding that its low rates would bring disaster to home industries.

He appealed to congress, however, not to adjourn until it had enacted a measure to "substantially reduce unnecessary existing duties," without destroying protection for the wool industry in the United States.

Majority Leader Underwood gave notice that next week he will call up the wool bill again to attempt to pass it over the president's veto.

Other Bills to Follow.

The president's disapproval of the wool bill is to be followed with similar vetoes of the steel bill and the cotton bill. The sugar bill was likely to be vetoed, as is the excise tax bill, the latter probably on the ground that the president believes it unconstitutional.

"Most of the rates in the submitted bill," wrote the president, "are so low in themselves that if enacted into law the inevitable result would be irretrievable injury to the wool growing industry, the enforced idleness of much of our wool combing and spinning machinery, and of thousands of looms and the consequent throwing out of employment thousands of workmen."

The bill sent to the White house imposed an ad valorem duty of 29 per cent on raw wool and on cloths of 49 per cent. Both rates Mr. Taft said were insufficient to protect the wool growers and the manufacturer.

Wants Schedule K Revised.

The president declared in his message that he was eager to see schedule K revised downward and that he would be glad to see congress remain in Washington until a bill he considered proper was sent to the White house.

The message sent to the house was drawn after conferences between the president and Chairman Emery of the tariff board. It was submitted to the cabinet at a special meeting. Reports that two members of the president's official family urged him to approve this measure were denied at the White house.

TWO BATTLESHIPS ARE DAMAGED

Connecticut Broke Crankshaft—Ne-
braska Ran Onto Shoal and Must
Go to Dry Dock.

Washington, Aug. 10.—The battle ship Nebraska ran on an uncharted shoal near Newport, R. I., and was seriously damaged.

The flagship Connecticut about the same time broke its starboard crankshaft and has been ordered to Philadelphia for repairs.

The navy department immediately ordered the Nebraska to the Boston navy yard for examination. It may be necessary to put it out of commission, replacing it in the fleet with one of the battle ships in reserve at the Philadelphia navy yard.

The Connecticut's accident was not so serious.

HAVE NO TIME FOR BUSINESS NOW

Congressional Investigation of High
Prices Must Wait Till Campaign
is Over.

Washington, Aug. 10.—The beef trust is safe from congressional investigation of high meat prices until after the election at least. This was the decision of house leaders. The judiciary committee, which has the authority and the funds to investigate the whole trust problem, declared a "closed season" on investigation till next winter. Congressmen think they have done enough investigating this season. They will soon have to have time to mend political fences.

TRUE COURTESY IN GERMANY

Little Incident That Caused English Traveler to Revise His Opinion of Young Officer.

The German has not only been taught the other courtesies, but he has been born with a kindness of heart and instinctive consideration for others which make his formalities of real value. The man who appears to have a fund of "small change and valueless attentions" is the same man who will go miles out of his way to do you a favor tomorrow.

Only a few weeks ago I was traveling in the same train with a young lieutenant, whose smooth and graceful manners had more than once aroused suspicion in my English soul.

He was got up in his newest and finest uniform; he had on spotless white kid gloves, an eyeglass thrust in his eye; he looked, in fact, the very best dandy, who would not soil himself to save a life.

The train was very full, and presently an old peasant fellow came in with his basket of vegetables, and looked about helplessly, treading on everybody's toes in the meantime. I looked on my military neighbor and waited for the storm. The dandy arose, saluted gravely, offered the weary old peasant his seat, and went and stood outside.

If there is anything in thought telegraphy, that young officer must have heard me apologizing to him all the rest of our journey together.—"My German Year."

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die. At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well. I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health. As a remedy for womanly ailments, it has a successful record of over 50 years. Your druggist sells it. Please try it. N. B.—Write for Ladies' Agency Leaf, Chamberlain Medicine Co., Chamberlain, N. H. Special Instructions, and be sure you get the genuine "Cardui" sent in plain wrapper.
